Insurance Election Form

We will make every effort to verify your eligibility and benefits prior to your visit. It is your responsibility to ensure that your insurance and coverage is reported to us accurately, and that any updates to your insurance and/or coverage is reported to us immediately in order to ensure accurate and timely billing.

The undersigned patient and/or responsible party, in addition to continuing personal responsibility, and in consideration of treatment rendered or to be rendered assigns to the physician or facility named above the following rights, power and authority. During the course of treatment by AHM, charges will be accumulated and routinely filed with your insurance company. Charges not covered by your insurance company, patient co-pays, deductibles and co-insurance **will be your responsibility and are due at the time of service.**

Please select what option best applies below:

_____ **Private-pay Election:** I certify that I have no insurance or have insurance that is not accepted by this medical provider, or that I do not wish my insurance to be billed, and I am solely responsible for all fees associated with my care. I acknowledge that I have been told my estimated fees with AHM will be, and that AHM may change the private pay fee schedule as needed at any time at which time I will be notified of that fee in advance. All fees are due at time of service.

_____ **Insured Election:** I certify that the insurance reported to is a complete listing. I understand that the office will not extend credit on, or submit a claim for any insurance not reported at the time of service. I also understand that any claim not paid for by my insurance within 60 days from the date filed, will become my responsibility and payable upon billing.

_____ **Work Comp/Personal Injury Election:** I certify that I have an active workers' comp or personal injury arrangement in which they have taken full financial responsibility for my treatment process at PPM (AHM)/SPSC, and that proper authorization has been received.

Financial Policy

We would like to share our financial policies and billing procedures with you. We hope you find this information helpful. If you have any questions or concerns, please contact our billing manager.

1. As a courtesy, we are happy to file insurance claims for your primary insurance. If you have Medicare and a secondary insurance, please confirm with Medicare that you are set up for a crossover which will allow Medicare to send their Explanation of Benefit (EOB) directly to your secondary insurance for payment.
*You as a Medicare beneficiary are the only person who can contact Medicare and give Medicare permission to send the EOB (Explanation of Benefit) directly to your secondary insurance.
*If Medicare does not crossover, you will be responsible for billing your secondary insurance and paying for the balance as well.
2. As a patient, you are responsible for co-payment/co-insurance amount, plus any deductible at the time of service.
3. If our office cannot verify your insurance benefits or if you have no insurance, payment in full is expected at the time of the service. We accept most forms of payment.
4. If your insurance carrier sends payment directly to you, then payment is due in full at your visit. In the event that your insurance does not cover all services, you will be billed for services that are not covered.
5. Our statements are sent out on a monthly basis. All charges are due and payable within 30 days of receipt. We will make every effort to work with you, so please contact our billing manager if there is a need for a payment plan.
6. If your insurance has not paid your account in full within a reasonable amount of time and after reasonable effort has been made, you will be billed the entire balance. If you are unable to keep your account current, we will not be able to provide additional medical services to you unless you have set up a payment plan for your balance. We may require that you pre-pay for all future services.
7. In the event that payment is not made on your account, and it is placed in collection, you are required to pay the balance so that medical service can be continued.
8. There will be a \$30.00 service fee on all returned checks in addition to the amount of the original check and the bank penalty. Please understand that we can only accept a cash payment to settle this issue.
If there is a repeat incident, we will no longer be able to accept your check.
9. Please notify us with at least 24 hours' notice if you must cancel your appointment so that we may let another patient have your appointment time. If you do not provide at least 24 hours' notice or do not show up for your appointment, there will be a "no-show" fee of \$50.00 for office visits and \$100.00 to \$150.00 for missed procedures, depending on the length of the procedure, to be paid at your next office visit.

I have read and understood the foregoing Financial Policy and agree to abide by the terms of the policy.

By signing below, I have read and understand the Financial Policy and agree to abide by the terms of the policy.

NOTICE OF PRIVACY PRACTICES (HIPPA)

Effective Date: May 1, 2023

<p>THIS NOTICE DESCRIBES HOW HEALTH INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.</p>
--

This Notice of Privacy Practices describes how we may use and disclose your protected health information (PHI) to carry out treatment, payment or health care operations (TPO) and for other purposes that are permitted or required by law. It also describes your rights to access and control your protected health information. "Protected health information" is information about you, including demographic information, that may identify you and that relates to your past, present or future physical or mental health or condition and related health care services.

Uses and Disclosures of Protected Health Information: Your protected health information may be used and disclosed by our organization, our office staff and others outside of our office that are involved in your care and treatment for the purpose of providing health care services to you, to pay your health care bills, to support the operation of the organization, and any other use required by law.

Treatment: We will use and disclose your protected health information to provide, coordinate, or manage your health care and any related services. This includes the coordination or management of your health care with a third party. For example, we would disclose your protected health information, as necessary, to a home health agency that provides care to you. For example, your protected health information may be provided to a physician to whom you have been referred to ensure that the physician has the necessary information to diagnose or treat you.

Payment: Your protected health information will be used, as needed, to obtain payment for your health care services. For example, obtaining approval for equipment or supplies coverage may require that your relevant protected health information be disclosed to the health plan to obtain approval for coverage.

Healthcare Operations: We may use or disclose, as needed, your protected health information in order to support the business activities of our organization. These activities include, but are not limited to, quality assessment activities, employee review activities, accreditation activities, and conducting or arranging for other business activities. For example, we may disclose your protected health information to accrediting agencies as part of an accreditation survey. We may also call you by name while you are at our facility. We may use or disclose your protected health information, as necessary, to contact you to check the status of your equipment.

Andrew H. Messiha, M.D., Inc.
Notice of Privacy Practices

Patient Initials: _____

Date of Birth: _____

We may use or disclose your protected health information in the following situations without your authorization: as Required By Law, Public Health issues as required by law, Communicable Diseases, Health Oversight, Abuse or Neglect, Food and Drug Administration requirements, Legal Proceedings, Law Enforcement, Criminal Activity, Inmates, Military Activity, National Security, and Workers' Compensation. Required Uses and Disclosures: Under the law, we must make disclosures to you and when required by the Secretary of the Department of Health and Human Services to investigate or determine our compliance with the requirements of Section 164.500.

Other Permitted and Required Uses and Disclosures Will Be Made Only with Your Consent, Authorization or Opportunity to Object, unless required by law.

You may revoke this authorization, at any time, in writing, except to the extent that your physician or this organization has taken an action in reliance on the use or disclosure indicated in the authorization.

Your Rights: Following is a statement of your rights with respect to your protected health information.

You have the right to inspect and copy your protected health information. Under federal law, however, you may not inspect or copy the following records; psychotherapy notes; information compiled in reasonable anticipation of, or use in, a civil, criminal, or administrative action or proceeding, and protected health information that is subject to law that prohibits access to protected health information.

You have the right to request a restriction of your protected health information. This means you may ask us not to use or disclose any part of your protected health information for the purposes of treatment, payment, or healthcare operations. You may also request that any part of your protected health information not be disclosed to family members or friends who may be involved in your care or for notification purposes as described in this Notice of Privacy Practices. Your request must state the specific restriction requested and to whom you want the restriction to apply.

Our organization is not required to agree to a restriction that you may request. If our organization believes it is in your best interest to permit use and disclosure of your protected health information, your protected health information will not be restricted. You then have the right to use another Healthcare Professional.

You have the right to request to receive confidential communications from us by alternative means or at an alternative location. You have the right to obtain a paper copy of this notice from us, upon request, even if you have agreed to accept this notice alternatively, e.g., electronically.

You may have the right to have our organization amend your protected health information. If we deny your request for amendment, you have the right to file a statement of disagreement with us and we may prepare a rebuttal to your statement and will provide you with a copy of any such rebuttal.

You have the right to receive an accounting of certain disclosures we have made, if any, of your protected health information.

We reserve the right to change the terms of this notice and will inform you by mail of any changes. You then have the right to object or withdraw as provided in this notice.

Complaints: You may complain to us or to the Secretary of Health and Human Services if you believe your privacy rights have been violated by us. You may file a complaint with us by notifying our privacy contact of your complaint. **We will not retaliate against you for filing a complaint.**

We are required by law to maintain the privacy of, and provide individuals with, this notice of our legal duties and privacy practices with respect to protected health information, if you have any questions concerning or objections to this form, please ask to speak with Dr. Andrew Messiha, Compliance Officer.

Associated companies with whom we may do business, such as an answering service, billing company, or delivery service, are given only enough information to provide the necessary service to you. No medical information is provided.

We welcome your comments: Please feel free to call us if you have any questions about how we protect your privacy. Our goal is always to provide you with the highest quality services.

Precision Pain Management (Andrew H Messiha MD)
Patient Agreement for Long-term Opioid Therapy

Date: _____

1. I, _____ agree that Dr. Andrew Messiha will be the only physician prescribing OPIOID (also known as NARCOTIC) pain medication for me and that I will obtain all of my prescriptions for opioids at one pharmacy. The exception would be an emergency situation or in the unlikely event that I run out of medication. Should such occasions occur, I will inform my physician as soon as possible. _____ (Initial)
2. I will take the medication at the dose and frequency prescribed by my physician. I agree not to increase the dose of opioid without first discussing it with my physician, and that an appointment would be required. I will not request earlier prescription refills. No other pain medications are to be taken unless first discussed with my doctor. _____ (Initial)
3. I will attend all reasonable appointments, treatments and consultations as requested by my physician. I agree to other pain consultations/management strategies, as necessary. _____ (Initial)
4. I understand that the common side effects of opioid therapy include nausea, constipation sweating and itchiness of the skin. Drowsiness may occur when starting opioid therapy or when increasing the dosage. I agree to refrain from driving a motor vehicle or operating dangerous machinery until such drowsiness disappears. _____ (Initial)
5. I understand that using long-term opioids to treat chronic pain may result in the development of a physical dependence on this medication, and that sudden decreases or discontinuation of the medication will lead to the symptoms of opioid withdrawal. I understand that opioid withdrawal is uncomfortable but not life threatening. _____ (Initial)
6. I understand that there is a small risk that I may become addicted to the opioids I am being prescribed. As such, my physician will require that I have randomized blood, urine, or hair testing, and that I see a specialist in addiction medicine should a concern about addiction arise. _____ (Initial)
7. I understand that the use of a mood-modifying substance, such as tranquilizers, sleeping pills, anxiety medication, alcohol, or illicit drugs (such as cannabis, cocaine, heroin, or hallucinogens), can cause adverse effects or interfere with opioid therapy. Therefore, I agree to refrain from the use of all of these substances without prior agreement from my physician. _____ (Initial)
8. I understand that I should check with my physician or pharmacist before taking other medications including over the counter and herbal products. _____ (Initial)
9. I agree to be responsible for the secure storage of my medication at all times. I agree not to give or sell my prescribed medication to any other person. Depending on the circumstances, lost medication may not be replaced until the next regular renewal date. _____ (Initial)

Precision Pain Management (Andrew H Messiha MD)
Patient Agreement for Long-term Opioid Therapy

Date: _____

10. I consent to open communication between my doctor and any other health care professionals involved in my pain management, such as pharmacists, other doctors, emergency departments, etc. _____ (Initial)
11. I agree to waive any applicable privilege or right of privacy of confidentiality with respect to the prescribing of my pain medication. I authorize the Doctor and my pharmacy to cooperate fully with any city, state, or federal law enforcement agency, including the California Board of Pharmacy, in the investigation of any possible misuse, sale, or other diversion of my pain medication, I authorize the Doctor to provide a copy of this agreement to the pharmacy. _____ (Initial)
12. I understand that the reduction in the intensity of my pain and improvement in my quality of life are the goals of this program, and that pain medication may not be the only solution to achieve this goal. _____ (Initial)
13. If we choose to discontinue your opioids, we will generally lower the dose slowly over several days. _____ (Initial)
14. I agree to use _____ Pharmacy, located at _____, telephone number _____, for all my pain medication. If I change pharmacies for any reason, I agree to notify the Doctor at the time I receive a prescription and advise my new pharmacy of any prior pharmacy's address and telephone number. _____ (Initial)
15. I understand that my pain treatment may be stopped if any of the following occur: _____ (Initial)
 - a. My physician does not think or no longer thinks that opioids are not effective for my pain or my functional activity is not improved.
 - b. I obtain opioids from sources other than Dr. Andrew Messiha
 - c. I give, sell, or misuse the drug.
 - d. I develop rapid tolerance or loss of effect from this treatment.
 - e. I observe significant side effects from my prescribed medication.
 - f. I do not abide by the requirements of this agreement.

The treating physician and the patient agree that we have discussed this contract, and the patient agrees to abide by the terms of this Agreement. The breaking any portion of this agreement may result in the withdrawal of all prescribed medication by the Physician and the termination of the Physician/Patient relationship.

PRESCRIPTION OPIOIDS: WHAT YOU NEED TO KNOW

Prescription opioids can be used to help relieve moderate-to-severe pain and are often prescribed following a surgery or injury, or for certain health conditions. These medications can be an important part of treatment but also come with serious risks. It is important to work with your health care provider to make sure you are getting the safest, most effective care.

WHAT ARE THE RISKS AND SIDE EFFECTS OF OPIOID USE?

Prescription opioids carry serious risks of addiction and overdose, especially with prolonged use. An opioid overdose, often marked by slowed breathing, can cause sudden death. The use of prescription opioids can have a number of side effects as well, even when taken as directed:

- Tolerance—meaning you might need to take more of a medication for the same pain relief
- Physical dependence—meaning you have symptoms of withdrawal when a medication is stopped
- Increased sensitivity to pain
- Constipation
- Nausea, vomiting, and dry mouth
- Sleepiness and dizziness
- Confusion
- Depression
- Low levels of testosterone that can result in lower sex drive, energy, and strength
- Itching and sweating

As many as
1 in 4
PEOPLE*

receiving prescription opioids long term in a primary care setting struggles with addiction.

* Findings from one study

RISKS ARE GREATER WITH:

- History of drug misuse, substance use disorder, or overdose
- Mental health conditions (such as depression or anxiety)
- Sleep apnea
- Older age (65 years or older)
- Pregnancy

Avoid alcohol while taking prescription opioids. Also, unless specifically advised by your health care provider, medications to avoid include:

- Benzodiazepines (such as Xanax or Valium)
- Muscle relaxants (such as Soma or Flexeril)
- Hypnotics (such as Ambien or Lunesta)
- Other prescription opioids

KNOW YOUR OPTIONS

Talk to your health care provider about ways to manage your pain that don't involve prescription opioids. Some of these options **may actually work better** and have fewer risks and side effects. Options may include:

- ❑ Pain relievers such as acetaminophen, ibuprofen, and naproxen
- ❑ Some medications that are also used for depression or seizures
- ❑ Physical therapy and exercise
- ❑ Cognitive behavioral therapy, a psychological, goal-directed approach, in which patients learn how to modify physical, behavioral, and emotional triggers of pain and stress.

Be Informed! ←

Make sure you know the name of your medication, how much and how often to take it, and its potential risks & side effects.

IF YOU ARE PRESCRIBED OPIOIDS FOR PAIN:

- ❑ Never take opioids in greater amounts or more often than prescribed.
- ❑ Follow up with your primary health care provider within ____ days.
 - Work together to create a plan on how to manage your pain.
 - Talk about ways to help manage your pain that don't involve prescription opioids.
 - Talk about any and all concerns and side effects.
- ❑ Help prevent misuse and abuse.
 - Never sell or share prescription opioids.
 - Never use another person's prescription opioids.
- ❑ Store prescription opioids in a secure place and out of reach of others (this may include visitors, children, friends, and family).
- ❑ Safely dispose of unused prescription opioids: Find your community drug take-back program or your pharmacy mail-back program, or flush them down the toilet, following guidance from the Food and Drug Administration (www.fda.gov/Drugs/ResourcesForYou).
- ❑ Visit www.cdc.gov/drugoverdose to learn about the risks of opioid abuse and overdose.
- ❑ If you believe you may be struggling with addiction, tell your health care provider and ask for guidance or call SAMHSA's National Helpline at 1-800-662-HELP.

PROMOTING SAFER AND MORE EFFECTIVE PAIN MANAGEMENT

UNDERSTANDING PRESCRIPTION OPIOIDS

Opioids are natural or synthetic chemicals that relieve pain by binding to receptors in your brain or body to reduce the intensity of pain signals reaching the brain. Opioid pain medications are sometimes prescribed by doctors to treat pain. Common types include:

- Hydrocodone (e.g., Vicodin)
- Oxycodone (e.g., OxyContin)
- Oxymorphone (e.g., Opana), and
- Morphine

Opioids can have serious risks including addiction and death from overdose.

As many as 1 in 4 people receiving prescription opioids long term in a primary care setting struggles with addiction.

1 in 4

Americans engaged in non-medical use of opioid pain medication in the last month.¹

OPIOIDS AND CHRONIC PAIN

Many Americans suffer from chronic pain, a major public health concern in the United States. Patients with chronic pain deserve safe and effective pain management. At the same time, our country is in the midst of a prescription opioid overdose epidemic.

- The amount of opioids prescribed and sold in the US quadrupled since 1999, but the overall amount of pain reported hasn't changed.
- There is insufficient evidence that prescription opioids control chronic pain effectively over the long term, and there is evidence that other treatments can be effective with less harm.

PRESCRIPTION OPIOID OVERDOSE IS AN EPIDEMIC IN THE US

IMPROVE DOCTOR AND PATIENT COMMUNICATION

The Centers for Disease Control and Prevention's (CDC) *Guideline for Prescribing Opioids for Chronic Pain* provides recommendations to primary care doctors about the appropriate prescribing of opioid pain medications to improve pain management and patient safety:

- It helps primary care doctors determine when to start or continue opioids for chronic pain
- It gives guidance about medication dose and duration, and on following up with patients and discontinuing medication if needed
- It helps doctors assess the risks and benefits of using opioids

Doctors and patients should talk about:

- How opioids can reduce pain during short-term use, yet there is not enough evidence that opioids control chronic pain effectively long term
- Nonopioid treatments (such as exercise, nonopioid medications, and cognitive behavioral therapy) that can be effective with less harm
- Importance of regular follow-up
- Precautions that can be taken to decrease risks including checking drug monitoring databases, conducting urine drug testing, and prescribing naloxone if needed to prevent fatal overdose
- Protecting your family and friends by storing opioids in a secure, locked location and safely disposing unused opioids

GUIDELINE FOR PRESCRIBING OPIOIDS FOR CHRONIC PAIN

CDC developed the *Guideline for Prescribing Opioids for Chronic Pain* to:

- Help reduce misuse, abuse, and overdose from opioids
- Improve communication between primary care doctors and patients about the risks and benefits of opioid therapy for chronic pain
